The screenshot shows the home page of the imMTrax Montana Immunization Information System. The page has a dark blue header with navigation links: home, change password, logout, help desk, and a lightbulb icon. Below the header, a yellow banner displays user information: Org: 0000 DEFAULT ORGANIZATION, Site: DEFAULT ORGANIZATION/999998, and User: ginger stewart. The main content area is divided into three sections: Announcements, Immunization Coverage, and Release Notes. The Announcements section lists five items with dates and links. The Immunization Coverage section shows a message about no clients available. The Release Notes section lists one item with a date and link. A sidebar on the left contains links for TEST 2.12.5.1, Query Only, Manage Locations, and Administration.

HISTORY

FYI - by clicking on Yes/No under the *Owned* column, you can see who administered the shot – Yes means that your organization gave the vaccine, No means that another organization gave the vaccine

The screenshot shows a web application interface. At the top is a table titled "History" with a "Return" button in the top right corner. The table has columns: Vaccine Group, Date Administered, Series, Trade Name, Dose, Owned?, Reaction, and Hist?. The data rows show various vaccine groups (DTP/aP, Hep A, HepB) with dates, series numbers, and "Owned?" status (all "No"). A blue circle highlights the "No" in the "Owned?" column for the third row (08/09/1999), and a blue arrow points from this circle to a pop-up window titled "Owner Information - Windows Internet Explorer". The pop-up window has a yellow background and contains the following text: Org Name: Conversion Organization, Site Name: Conversion Site, Address 1:, Address 2:, Contact Name:, and Phone Number:.

Vaccine Group	Date Administered	Series	Trade Name	Dose	Owned?	Reaction	Hist?
DTP/aP	03/11/1999	1 of 5			No		Yes
	05/17/1999	2 of 5			No		Yes

VACCINES RECOMMENDED BY SELECTED TRACKING SCHEDULE

At the bottom of the screen, there is an option: *View Explanation of Schedule Highlighting*. By clicking on that, you will see an explanation of the color coding.

The screenshot shows a vaccine tracking interface. On the left, a blue sidebar contains a list of vaccine groups: Rotavirus, Tdap > 7 years, Varicella, Vaccines Recommended, Non-validated doses, and Non-validated doses. The 'Vaccines Recommended' section is expanded, showing a list of vaccine groups: DTP/aP, Hep A, HepB, Hib, HPV, Influenza, MCV4, MMR, Pneumococcal, Polio, Rotavirus, Tdap > 7 years, and Varicella. A red arrow points from the bottom of the sidebar to the 'View Explanation of Schedule Highlighting' link at the bottom of the main content area. The main content area displays a table with columns for dates (06/26/2000, 02/10/2004) and a status column (3 of 4, 4 of 4). A red arrow points from the top right of the main content area to the 'View Explanation of Schedule Highlighting' link. A pink arrow points from the 'View Explanation of Schedule Highlighting' link to the 'Explanation of Status' window. The 'Explanation of Status' window contains the following text:

Explanation of Status

The earliest date column is highlighted *yellow* if the earliest date is before the recommended date. This indicates that the vaccine is due.

The recommended date column is highlighted *green* if the recommended date is before the overdue date. This indicates that the vaccine is due today's date is before the overdue date. This indicates that the vaccine is due.

The overdue date column is highlighted *blue* if the overdue date is before the latest date or there is no latest date. This indicates that the vaccine is overdue.

The entire vaccine group row is highlighted *pink* if the series is completed or invalid.

Yellow = Can Administer Green = Due Blue = Overdue Pink = Completed or Invalid
